## Training & Programs Leader

### EDUCATION

---

**University of Florida**  
Aug 2001 – Dec 2006  
Bachelors in Electrical Engineering  
3.3 GPA

### WORK EXPERIENCE

---

#### **Florida Power & Light / Engineering Leader**

Oct 2015 – Oct 2018

Lead a group of engineers and staff to address customer's needs including but not limited to design and engineering of construction projects, project management for a diverse range of projects, field exercises to perform assessments on conditions of distribution system, respond quickly and efficiently post natural disasters, as well as managing my teams financial budget.

#### **Florida Power & Light / Production Leader**

June 2014 – Oct 2015

Responsible for working with bargaining unit members to construct engineered designs in the field, remove barriers and setup pre-construction needs to successfully construct projects. Work to schedule crews for adequate coverage regarding restoration and after hour emergency response and travel local and statewide when necessary.

#### **Florida Power & Light / Construction Project Manager**

Jan 2007 – June 2014

Manager large scale residential, commercial and industrial projects from ground up. Obtaining customers permitted plans to develop an electrical grid suitable for customer's need. Negotiated, scoped and designed/engineered a power source for multiple projects at a time. Did emergency response as well during any and all weather events.
